## FREELANCE SERVICES

- Websites and landing pages for small businesses
- ASP.NET Core MVC applications and admin panels
- Databases, queries, reports, and maintenance
- API integrations and workflow automation
- AI-assisted development with Codex, Claude, agents, and specs

## TECHNOLOGIES

■ C# / .NET ■ ASP.NET Core ■ MVC ■ Web API  
■ Entity Framework ■ SQL Server ■ PostgreSQL ■ SQLite  
■ HTML ■ CSS ■ JavaScript ■ React ■ TypeScript  
■ Bootstrap ■ Docker ■ Git ■ Codex ■ Claude  
■ AI agents ■ Markdown specs ■ Docs ■ Hooks ■ Checks

## LANGUAGES

Bulgarian - native  
English - professional working proficiency

## STRENGTHS

- Practical approach to real business problems
- Clear communication with non-technical clients
- Structured work with specs, md docs, hooks, and agent workflows

## PROFILE

Mid-level full-stack .NET developer focused on practical web solutions for small businesses, service providers, and internal teams. I use an AI-assisted engineering workflow with OpenAI Codex, Claude, agents, Markdown specs/docs, hooks, and checks to deliver faster, more organized, and more traceable work.

## EXPERIENCE

### Full-Stack Developer & Data Support

2024 - Present | Sofia / Remote

- Developed and maintained web applications with HTML, CSS, JavaScript, Blazor, and ASP.NET Core.
- Worked with databases, SQL queries, internal systems, and API integrations.
- Resolved technical issues and supported real business workflows.

### Independent Product & Web Development

2023 - Present | Freelance / product practice

- Built portfolio websites, marketplace concepts, dashboards, and business tools.
- Organized projects with specs, md files, agent workflows, hooks, and verifiable delivery steps.

### Sales Consultant

2018 - 2019 | Technopolis

Worked directly with customers, understood needs, explained options, and offered practical solutions.

## SELECTED PROJECTS

### Popoff Portfolio

ASP.NET Core MVC, EF Core, SQLite, Bootstrap, Docker

Personal lead-generation website for presenting services, projects, certificates, and a direct contact path.

### JobCea Marketplace

ASP.NET Core, React, TypeScript, SQL Server, JWT, Docker

Marketplace concept connecting businesses with short-term workers through separate business and worker flows.

### AI-Assisted Engineering Workflow

OpenAI Codex, Claude, AI agents, Markdown specs, hooks, project checks

Delivery workflow for planning, development, and verification through specs, md documentation, agents, and automated checks.

## EDUCATION

### Alpha C# Track

Telerik Academy | 03/2023 - 08/2023

### Master's Degree - Law

St. Cyril and St. Methodius University of Veliko Tarnovo | 2018 - 2023

### Economics and Management

National High School in Finance and Business | 2013 - 2018
